Mojito Grill is a unique way of cooking Cuban food, combining the freshest ingredients with traditional techniques. The key to our cooking are the Caja China ovens, which provide a traditional way Cubans have cooked meat for decades. The principal of the oven is simple—never let the flame touch the meat. We use extreme temperature to sear the juices in, which eschews the fat from the meat which creates a natural crispy outside with mouth watering juices inside. Adding our own family au jus mojo we are sure you will agree that our Cuban cuisine is the best you've ever tasted. Mojito Grill offers, pork, poultry and fish meals that taste great and are good for you. So come and enjoy what my family and friends have done for many years, and let this new heat intense Cuban style cuisine add some spice to your life!
